- ✦ eg.: purchasing 3 licenses, you will get 4
- ✦ eg.: purchasing 6 licenses, you will get 8
- ✦ eg.: purchasing 9 licenses, you will get 12

Notes about multi-licensing, from End-User License Agreement (EULA)

Every installed license, once it has been registered (Personal/Professional/Enterprise), is usable by just one user and on one computer only. Thus, if you have the need to let more users use a registered license of CyberInstaller Suite, it is necessary to purchase a registered license for every user that will use it and for every computer where it will be installed. It is not possible to use the same registered license by more than one user or on different machines.

Professional and Enterprise licenses are the only ones that allow you to distribute commercial software. Any organization, company, society or professional developer, must purchase at least a Professional license.

How to update your license

Once you have purchased a registered license (Personal, Professional or Enterprise), the corresponding activation code (linked to the license owner name) will be sent from SilverCyberTech to your email inbox. Such code must be inserted directly in the Studio module, in "Tools/Options/License" window, "Unlock code" field.

Payment methods

▶ PAY PAL (credit card or PayPal account)

Enter the on-line shop to accomplish the purchase with a credit/pre-paid card now:

<http://www.silvercybertech.com/english/eshop.html>

Here you can immediately purchase the registered licenses of **CyberInstaller Suite** (Personal, Professional or Enterprise, even in "update" edition) through credit card, pre-paid card or on-line account, in absolute safety thanks to PayPal services.

▶ BANK TRANSFER

To the following international bank account:

bank: Banco Posta
receiver: Mr. Pappalardo Sergio
IBAN: IT31 I076 0111 8000 0006 6902 685
BIC/SWIFT: BPPIITRRXXX

It is recommended to send payment acknowledgment to the customers service:

info@silvercybertech.com

Important notes

As soon as payment is done it is recommended to send an email to the customer service specifying the registered license holder's name (case-sensitive). Installation packages created will be signed in with such name. Immediate shipping of the activation code will follow (within 24 business hours).

Contact the customer service for any doubt or explanation and to receive the needed assistance to conclude the purchase in the best way. We are at your total disposal and we will answer you as soon as possible (usually within 24 hours or less).
